

COVID-19 – 5th UPDATE JUNE 23

Although the national emergency and mandatory general quarantine and curfew is maintained until **June 30th**, SIM is glad to inform that the Peruvian Government has approved our Operating Permit.

Airport and Port Cargo Operations are regularizing, therefore we still have some delays, and HHGs shipments are being cleared if owners are already in Perú.

We are working partially from home and office, but offering our full regular services:

- ✓ On site pre-move surveys
- ✓ Packing
- ✓ Customs clearance
- ✓ Delivery
- ✓ Storage

We have implemented a strict COVID-19 Protocol to guarantee the health and well-being of our clients and employees.

Peruvian borders continue closed, suspending passenger transport by air, sea, land and river.

We hope you and your family are safe and pray that this situation ends soon.
